Shredding Event
Saturday, April 16 ~ 9 am - Noon

“What are the pink survey stakes placed along the north side of US 158?”

The funded portion of the [Blue Heron Trail](#), which will start at the tunnel under I-40 at Lakeside Crossing, go south toward US 158, and then parallel US 158 toward the roundabout will begin construction on April 11th. The stakes with the pink streamers provide the boundaries for the contractor.

Message from Mayor Rick Cross

I want to begin this month's message with a hearty CONGRATULATIONS to our town's own [Maddie Cakes Bakery](#) for recently being named the Davie Chamber of Commerce 2021 Small Business of the year. In Maddie Myers' words — “What started out as a fun way to bake cupcakes and give back eventually made its way to what is now Maddie Cakes Bakery!” A well-deserved recognition to the entire Maddie Cakes team.

We are nearing the beginning of construction on [Phase 1 of the Blue Heron Trail](#). As a reminder, this phase will include the area beginning at the north entrance of the pedestrian tunnel at Lakeside Crossing - the tunnel will be retrofitted for bike and pedestrian use. The trail will then travel parallel to Royal Troon Lane (going south toward 158 in the area between Hillsdale Dental and Steelman's Ace Hardware). It will then turn east and follow Highway 158 to the roundabout where users will be able to cross Twins Way and Highway 158 and, if desired, continue on to Tanglewood Park. This portion was conceived of and funded several years ago, so we are excited to get things underway.

We are continuing to focus on subsequent pedestrian pathways — creating connections that will allow us to open the pedestrian bridge, potential trails that could include some of the Bahnson Lakes areas, and other connection points across town. In addition to you, our residents, we also continue to include stakeholders like Truist Sports Park, RISE, and others in helping evaluate the priorities for expansion, as well as considering potential funding strategies over time.

In [last month's message](#), I wrote about increased interest in our community by future residents, businesses, and developers. I also shared an overview of the re-zoning request process.

In any given week, Town Manager Lee Rollins receives calls from developers expressing a desire to learn more about our community. Whereas it is not the role of government to directly engage in private property transactions, we do share information included in our Comprehensive Plan, as well as our town's zoning and design requirements. Often, these are very preliminary discussions, and interested parties are likely reaching out to a number of towns and communities. During those conversations, Mr. Rollins and staff communicates our town's zoning ordinance and building/landscaping design requirements that must be considered with any proposed development.

There are times when a developer and property owner may seek to re-zone property for a use different from those allowed in the current zoning designation. A re-zoning request is afforded to a property owner through a specific process that includes review by the

Planning Board, with their recommendation to approve, deny or defer the re-zoning request. This recommendation, with supporting staff reports, is then considered by the Town Council, who is required to hold a public hearing on the issue if a re-zoning is to take place. This process provides opportunities for residents and other interested parties to bring forth public comments.

All Town Council and Planning Board meetings are open to the public. Agendas and information are published in advance of meetings, and are available on the town's [website](#) and are also communicated on the town's [Facebook](#) page. I encourage you to share your thoughts - either by attending meetings or by email at: bermudarun@townofbr.com. Town staff will make sure all of this is provided to the Planning Board and Town Council.

As you likely know, we are in the midst of updating our town's Comprehensive Plan. An important part of the process is getting input from you, our town's residents. We are currently asking you to complete a survey. [Click here](#) to access the website we have set up for all information relating to the Comprehensive Plan update and to take the survey. This is a great way to inform the town's leaders of your thoughts and desires for the future of our town. **Additionally, we will be holding an input session on May 25th at the WinMock Granary. Mark your calendar.**

I'm pleased to announce that, after almost two years away, we will again have **One-Stop Early Voting** at our Town Hall. As many of you know, over the years we have worked with the Davie County Board of Elections to hold one-stop early voting here during primary and general elections. In 2020, with COVID-19 and the need to ensure adequate social-distancing, the Davie County Board of Elections moved all voting to larger locations. One-Stop Early Voting will begin on April 28. For more information, see the large VOTE button in this newsletter.

As always, I want to continue to encourage everyone across our community to stay in touch with what's going on around town. The best way to know what's occurring around town is to sign up (and encourage your friends and neighbors to do so as well) for our [E-Newsletter](#). Also, if you are on [Facebook](#) or [Instagram](#), please follow us so you can receive up-to-date information. Finally, use our [town website](#) as a source for town-related information. Please spread the word!

Finally, I continue to have the pleasure of spending time with people across our community — often individually, sometimes in small casual groups, and also during larger neighborhood gatherings. Most recently I spent an evening with neighbors in Kinderton Village, when most of our discussion was around a very recent re-zoning request for land behind the Lowe's shopping center. Thanks to some of our Council members, Town Manager Lee Rollins, Sheriff JD Hartman, Community Officer Mike Foster, Smith Grove Fire Chief Don Howard, and Assistant Fire Chief Kendall Howard for participating in the discussion as well. Most of all, thank you to Kinderton Village residents for the invitation to share thoughts and to hear what's on your mind.

To all with whom I have spent time, thank you for your time, and for sharing thoughts and ideas with me. I continue to look forward to being with everyone across our community soon. Reach out to me. I want to hear from you. You can reach me at: rcross@townofbr.com or 336-391-1992.

Rick Cross

Spring Clean – Bulk Item Disposal

Saturday, May 7

8:00 am – Noon

Locations:

**Corner of Fescue and Riverbend Drives- Near the Country Club
