## **Message from Mayor Mike Brannon**

Given the recent temperatures, let there be no doubt that summer has arrived! As we celebrate Independence Day, kids on summer break, swimming pools open, and plenty of outdoor events in and around our town, it is a great time to “Just Be” in Bermuda Run.

I want to devote this month’s message to an urgent item that needs your action. Some of you may have already received this message through social media or other sources, but I want to take this opportunity to spread the word one final time...

The residents of Bermuda Run and northeastern Davie County have an opportunity to provide public input in support of a local road improvement project proposed for this area. This project includes additional travel lanes on NC 801 from the US 158/NC 801 intersection to Oak Valley Blvd and includes

both bike lanes and sidewalks along that route as well. If this corridor is part of your daily travels, or the idea of biking or walking this route appeals to you, I need your help to be an advocate for this effort.

As members of the Winston-Salem Metropolitan Planning Organization (MPO), Bermuda Run and northeastern Davie County must submit proposed transportation improvement projects—like widening NC 801—to be evaluated by the NC DOT. Other members of this organization, including Winston-Salem, Forsyth County, Clemmons, Lewisville, and others, also submit their proposed list of projects for consideration. Once this list of projects is compiled, each candidate transportation project is scored and ranked against all other projects in/around the Winston-Salem area—using a points-based system.

An important factor in the scoring/ranking is public input. This means YOU can influence how our project gets scored and ranked. In other words, we are “in competition” with other projects and you have the opportunity to help impact the project score. Given the limited amount of dollars for NC DOT projects, only the top ranked projects are likely to be considered, so your “vote” could impact whether our NC 801 project does or does not receive funding.

These program planning efforts only occur every few years, so this is our chance to finally bring transportation improvements to this segment of NC 801. If we miss this window, it will be years before the next round of projects are evaluated. This is our opportunity for action.

How can you help? Simply send an email message to Hunter Staszak at: [hunters@cityofws.org](mailto:hunters@cityofws.org) and reference project **SPOT ID: H184620** in your message. Your message can simply say, “I support project SPOT ID H184620.” You are also welcome to further explain to Hunter why you believe this project is important. What matters most is that you take a few minutes now to send Hunter a message supporting this project and include our project number in that message.

The deadline for this public input is **July 15th**. After that date, the points will be totaled and the final scoring will occur; our project will either make or miss the cut. So, please take a few minutes to send Hunter your message today! If you have already sent your email message to Hunter, thank you—please encourage your neighbors to do the same.

As always, I look forward to connecting with you in person, by phone, or via email. Please reach out to me if you would like me to speak at your small group gatherings or at any organized events. I am happy to share town news, answer questions, and certainly listen to your ideas or concerns. You can reach me by email [mbrannon@townofbr.com](mailto:mbrannon@townofbr.com) or by phone 336-775-7633.
